## Pricing Change Notice Effective December 24, 2021

NetBurner takes pride in providing its customers with the highest quality products in the industry along with world class customer service and support.

While we strive to avoid price adjustments for our products, dramatic supplier price increases for components have made it necessary to realign the pricing of specific products. Component prices have increased as much as 50% in some cases. As a result, NetBurner will implement pricing increases across most products ranging from 3% to 20% effective December 24, 2021.

- Products that have had price adjustments in Q4 2021 may not be affected.
- Larger increases apply to older devices, since those components have had the largest increases.
- We will review pricing again in December 2022 for possible component reductions.

Orders at 2021 pricing must be placed before December 24, 2021 due to the company shutdown from December 24, 2021 through January 3, 2022.

Please contact NetBurner Sales at [sales@netburner.com](mailto:sales@netburner.com) for specific questions and updated quotations.

Thank you for your continued business, loyalty and support.

Sincerely,

The NetBurner Team
